

Fund Update for the quarter ended 31 March 2018

---

## OneAnswer KiwiSaver Scheme

### **■ Australasian Share Fund**

This fund update was first made publicly available on: 27 April 2018

#### What is the purpose of this update?

This document tells you how the Australasian Share Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. ANZ New Zealand Investments Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### Description of this fund

The Australasian Share Fund invests mainly in New Zealand and Australian equities. Investments may include:

- equities in companies that are listed or intend to list on the New Zealand or Australian stock exchanges, and
- cash and cash equivalents.

The fund aims to achieve a positive yearly return (after the fund charge and before tax) that over the long-term outperforms the relevant market index.

Total value of the fund (\$)	27,903,897
Number of investors in the fund	1,479
The date the fund started	1 October 2007

#### What are the risks of investing?

Risk indicator for the Australasian Share Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [anzinvestments.co.nz/riskprofiletool](http://anzinvestments.co.nz/riskprofiletool).

Note that even the lowest category does not mean a risk-free investment, and there may be other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years ended 31 March 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past five years	Past year
<b>Annual return</b> (after deductions for charges and tax)	12.00%	12.66%
<b>Annual return</b> (after deductions for charges but before tax)	13.36%	13.82%
<b>Market index annual return</b> (reflects no deduction for charges and tax)	14.89%	16.93%

The market index annual return shows the return of the S&P/NZX 50 Total Return Index (with imputation credits re-invested).

Additional information about the market is available in the statement of investment policy and objectives on the offer register at [business.govt.nz/disclose](http://business.govt.nz/disclose).

**Annual return graph**

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2018.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

**What fees are investors charged?**

Investors in the Australasian Share Fund are charged fund charges. In the year to 31 March 2017 these were:

	<b>% of net asset value</b>
<b>Total fund charges</b>	<b>1.07%</b>
<i>Which are made up of:</i>	
<b>Total management and administration charges</b>	<b>1.07%</b>
<i>Including:</i>	
Manager's basic fee	1.00%
Other management and administration charges	0.07%
<b>Total performance based fees</b>	<b>0.00%</b>

	<b>Dollar amount per investor</b>
<b>Other charges</b>	
Membership fee <sup>1</sup>	\$24

Investors are not currently charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about Scheme fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

**Example of how this applies to an investor**

Sarah had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Sarah received a return after fund charges were deducted of \$1,266 (that is 12.66% of her initial \$10,000). Sarah also paid \$24 in other charges. This gives Sarah a total return after tax of \$1,242 for the year.

**What does the fund invest in?**

**Actual investment mix<sup>2</sup>**

This shows the types of assets that the fund invests in.

**Target investment mix**

This shows the mix of assets that the fund generally intends to invest in.

## Notes

1. We charge you a membership fee at the scheme level for looking after your KiwiSaver account. If you're invested in more than one fund, this fee will be deducted from the fund with the highest balance.
2. The target and actual investment mix of this fund are based on:
  - the cash and cash equivalents held by the fund, and
  - the asset class of the underlying fund in which the fund invests.
They are not based on the cash and cash equivalents or any other assets held by the underlying fund.
3. Graham Ansell was no longer a key person from 6 April 2018.
