

Fund Update for the quarter ended 31 March 2017

---

ANZ Investments Single-Asset-Class Scheme (marketed as the OneAnswer Single-Asset-Class Funds)

**Balanced Fund**

This fund update was first made publicly available on: 03 May 2017

**What is the purpose of this update?**

This document tells you how the Balanced Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. ANZ New Zealand Investments Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

**Description of this fund**

The Balanced Fund invests mainly in growth assets (equities and listed property), with some exposure to income assets (cash and cash equivalents and fixed interest). The fund also has a small exposure to alternative assets.

The fund aims to achieve a positive yearly return (after the fund charge and before tax) that over the long-term is 3.9% over inflation (allowing for a negative return 4.8 years in every 20).

Total value of the fund (\$)	50,821,138
The date the fund started	28 February 1993

**What are the risks of investing?**

Risk indicator for the Balanced Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-kickstarter](http://www.sorted.org.nz/tools/investor-kickstarter).

Note that even the lowest category does not mean a risk-free investment, and there may be other risks that are not captured by this rating. This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years ended 31 March 2017. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past five years	Past year
<b>Annual return</b> (after deductions for charges and tax)	8.88%	5.95%
<b>Annual return</b> (after deductions for charges but before tax)	10.19%	7.10%
<b>Market index annual return</b> (reflects no deduction for charges and tax)	10.25%	9.71%

The market index annual return is calculated using the target investment mix and the indices of each asset class.

Additional information about the market index is available in the statement of investment policy and objectives on the offer register at [business.govt.nz/disclose](http://business.govt.nz/disclose).

**Annual return graph**<sup>1</sup>

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2017.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

### What fees are investors charged?

Investors in the Balanced Fund are charged fund charges. In the year to 31 March 2016 these were:

	% of net asset value
<b>Total fund charges</b>	<b>1.29%</b>
<i>Which are made up of:</i>	
<b>Total management and administration charges</b>	<b>1.29%</b>
<i>Including:</i>	
Manager's basic fee	1.15%
Other management and administration charges	0.14%
<b>Total performance based fees</b>	<b>0.00%</b>

	Dollar amount per investor
<b>Other charges</b>	
Other charges	\$0

Small differences in fees and charges can have a big impact on your investment over the long term.

### Example of how this applies to an investor

Sarah had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Sarah received a return after fund charges were deducted of \$595 (that is 5.95% of her initial \$10,000). Sarah did not pay any other charges. This gives Sarah a total return after tax of \$595 for the year.

### Further information

You can also obtain this information, the PDS for the OneAnswer Single-Asset-Class Funds, and some additional information from the offer register at [www.business.govt.nz/disclose](http://www.business.govt.nz/disclose).

### Notes

1. Portfolio investment entities and prescribed investor rates came into effect on 1 October 2007. The returns for the years to 31 March 2007 and 31 March 2008 are calculated using the tax paid by the fund for those years.

2. The actual investment mix includes an "other" asset. This is the fund's investment in the private equity P.A Private Capital Fund 3, an alternative asset.
